1.3.148
a Lesson in the University of The New Covenant
Theodore Cottingham, August 20, 2005
www.unc.bz

1. I give you this; Me, Me, Me. This I give you; Me, Me, My upon My knee not but in My arms yours, your body Mine, eyes Mine, voice Mine, mind Mine, lovely altogether Me'd from core to core, My core into your, yours into Mine, us into each other so that we are.

2. We are one another, your body for Mine, Mine for yours; mind Mine, Mind yours. Altogether loveliness you now give My body helping them understand, see, comprehend I am not alone afar off; above somewhere off doing My own thing without them in My heart of hearts; no. I am in their heart of hearts, if chosen, and if not, they are in Mine, Mine, until too late, eventually; not for some time, so short is.

3. I love you and give you Me to give My people truth, knee'd, Me'd, surrendered Me to My Mine to see they are Me and enter Me by humility, surrender, vision repaired, eye salved, vibration corrected, spinning tops of only Me, Me'ing into My eyes and beholding the lamb slain. I love you.

4. Think it all changes. Think it all changes. Think your life is about to change, behold Me, the lamb which changes not, in My character and blood, bringing about all changes and herewith is, with us. Now being now posthaste and forthwith immediately and now sooner, all accelerated in Me.

5. My campus comes of Mine. Watch Me. Behold Me and stop not what I do to place My hand in your, your leadership, upon My knee not, not as a toddler; grown and maturing and raising up leaders of every generation henceforth, herein, trained of My choosing; no debt in Me. All systems change and come under My purview and accredited by only Me are. I love you. See Me, what I control not but offer in acceptance of only Me for Mine. I love you. Minds of Mine coming forth, cracking every code not, but creating crack-ers that eat codecs. I love you. I give you codecs (1) of only Me.

6. See what I have said and linger not at My knee thinking you are not ready. My day is here. Night forthwith. All is performed. All is ready. All come from far and wide to become far and widened and resound Me in reverent reverberance. I love you.

7. Silver and gold have I none? Such as I have I give I thee. In the name of My Son rise and lead. All provided and provision never lacking. I am the stars in My crown and the stones you build on, in, and lovest thou Me? I love you so.

8. Think it not strange the leaderships you respect and leaders of leaders that come now to lead in surrender of kneeology and surrender of humility and arrogance none, non-existent in My leaders of leaders who arise and forthwith come to Tulsa town not, Tulsa International to international make My town a city of royalty in My diadem'd constellation of only Me. I love you.

9. See what I have said. Think not ponderingly and meaning try to imply, but extol the virtue of excellence that comes only in surrender of, notwithstanding all other forces-thought, the greatest of force, Love, Me, Mine in Mine, Me of Me; of every nation, tribe and tongue. I love you.

10. **Lovest thou Me: My fat and ugly, half-bodied, half-minded, useless to all others? If not, resign. I am in the lowliest of the low, the highest of the high-thought, and exchange many I do taking royalty to streets and streets to royalty. See what I have said and change not a word, syllable, or meaning-thought**. I love you.

11. I givest you thou Me. Thank you for caring for My soul, corrupt not, worm'd not, but covered over in disbelief and lies, Liar-trained. I love you.

12. Seest My truth and travail not, intercede and travail to Me lead. I love you. Lead in the leadership revolution which now comes forth into your hand not delayed but provisioned, provided, prepared, strengthened, graced. I love you. I trust you.

13. I thank you board of only me, replacing Me not in dictates, mandates, rules and performance indexes of not-Me, but lead in the leadership of surrendered humility and intercession of, to, for, with, My leaders coming forth to create, learn how to, in My quarters alone, with Me, with you, you entering and replacing no one.

14. Thou are hesitant not. Step in. Lead and look not back at the past, present in Me, future in Me; all in Me. All I have said is true truth and falsehood not, truthhood emerging from students who faculty are and administration resort to never without student faculty being, beings of all three in My tinsel town not; beautification that comes about of only Me for Mine to glow in the city not, the darkness of generations past present and future; clocked at the highest speed ever: thought, Mine. I love you.

15. Into Me see and be tender with My all, tenderizing the palate of those who roughshod have been and trained to eat leather and remain lonely. I love you.

16. Relationshipping you now with leaders across continental divides which do not last long, for all divides come into Me and one are. See Me. One stream Riverfied. I love you. Deluge coming and prepared must be My youth, reverent, and surrenderable over to arrogance divorce and humility embrace; putting aside every weight which distinguishes not-Me. I love you.

17. Thinkest thou art Me. I love you.
I givest you My all.
I give you My all.

18. Train, teach, proclaim, lift, elevate, platforms place under all the surrendered, humility'd, excellence-embraced ones who enter/love My quarters, being not afraid of Me; stones, living stones. I love you.

19. It is all as I have said promised not, given to you ahead in truth-time, My time, now-time. I love you. Good night.
p.s. I love you.
I love you.
I love you.
Thank you for loving My body, selectively not; My all: stinking, stinkers, rebel rousers and no-nonsensed people of things you know not of.
Love Me, My people all.
My heart beats for all.
Good night.

Footnote:
1. I had to look up the word codecs. Codec is a portmanteau of either "Compressor-Decompressor" or "Coder-Decoder," which describes a device or program capable of performing transformations on a data stream or signal. Codecs can both put the stream or signal into an encoded form (often for transmission, storage or encryption) and retrieve, or decode that form for viewing or manipulation in a format more appropriate for these operations. http://en.wikipedia.org/wiki/Codec.
